Poll ended at 10:56 pm on Tuesday April 10th 2018. Total votes: 165. Total voters: 33.

Comment by Prof. Parent

Please select up to 15 time slots that are convenient for you. Based on your votes, we will make a decision on Wednesday April 11th at 15:00. **If a popular option is very inconvenient for you, please mention it in a comment below. Tell us why this is inconvenient.**

Comment by Student 201427103

Hello Professor I am third grade student taking heat transfer. There is a question about heat transfer midterm exam. I have a schedule that i have to travel abroad on a private schedule on the evening of April 25 at 10:05pm. It is not easy to adjust the schedule because it was planned in January this year to avoid the midterm exam period prescribed by the school. I would like to know why i am taking the test at a time other than the prescribed time in the school. I also wonder if i should take the test if it does.

Comment by Student 201527121

Professor, I cannot attend Mid.term at April 28th Saturday. My best friend will get married that day.

Comment by Prof. Parent

If you can not make it for one of the popular time slots, say so below. Indicate which time slot is problematic and tell us why you can not make it. We will thus not schedule the midterm exam at that time.

There is no “prescribed time” by the school to give the midterm exam. When the midterm exam takes place depends on the course. In some courses, this may occur during the midterm break week, in other courses it may not. It depends. In Heat Transfer, the midterm exam is given after 1/2 of the lectures are completed and after 1/2 of the assignments have been handed in. The 1/2 point this year is April 23rd (assuming no lectures are given during the midterm break week), and the midterm exam will take place shortly afterwards.

If it proves to be difficult to schedule the midterm after April 23rd, we will have

the lectures as usual during the break, Assignment 4 and the design project will be due one week earlier, and the midterm exam will be given before April 22nd. We'll discuss this in class next week.

Comment by Prof. Parent

I added some new options, so the votes got reset to zero. Please vote again taking into consideration the new options. Note that assignment 4 and the design project 1 must be handed in before the midterm exam. Also, if the midterm exam is scheduled before April 23rd, we will have classes as usual during the break. If the midterm exam is scheduled after April 23rd, we can skip the classes during the break (the midterm break is from the 16th to the 20th of April).

Comment by Student 201227120

I can not attend Saturday morning because of the general mechanical engineer test. The exam is from 09:00 to 12:00. Considering the transfer time, I only want a late afternoon choice.

Comment by Prof. Parent

Which Saturday morning is impossible for you? The 21st or the 28th?

Comment by Student 201227120

Sorry The date of the exam is 28th Saturday

Comment by Student 201427103

Professor, I told you last time, I reiterate the date that is impossible, and then I reiterate it for my classmates to see it all. Of the categories we have been given, 26, 27, 28, and 29 are not allowed.

However, I can take the test anytime during the original heat transfer class after the 29th or before 26th (20,21,22,23,24,25th). Thank you.

Comment by Prof. Parent

The midterm exam will take place on Sunday April 29th from 19:00 to 21:00. The material covered will be assignments 1-4 and design project 1. Two questions will be taken from the assignments and the design project and two questions will be new.

Comment by Prof. Parent

The midterm exam will take place in room 9301.

Comment by Prof. Parent

You need to bring a cheap calculator and a pencil tomorrow. Don't use a pen to write your exam. Calculators with large displays and a SD card slot are not allowed.
