## Comment by Prof. Parent

To be well prepared for the final exam, do the following:

- (a) Make sure you know how to (and remember how to) solve all assignment problems I have given you this semester **and that you get the same answer as listed**. If you can't get the same answer, ask questions and figure it out.
- (b) Make sure you know how to solve all problems within the 2016, 2017 final exams and also the 2016, 2017, and 2018 midterm exams. Some of the new questions tomorrow may be similar to the questions in the previous exams.
- (c) Review class notes for the entire semester. There are certain things that I covered in class that were not asked in the assignments. This may show up in the exam tomorrow.
